# TRY TO LYNCH TWO NEGROES.

Police Have Trouble Quieting Soldiers at Fort Leavenworth.

Giers at Fort Leavenworth.

Fort Leavenworth Kas. July 12.—United States soidiers from Fort Leavenworth attempted to lynch Evenidge Williams and Walter Brown, negroes, to-night, and for over an hour the entire Police Department was kert busy quelling the trouble.

Williams and Brown had engaged in a now with soldiers and one of them fired a number of shots at a soldier. The soldiers then congregated in great numbers, and it was decided to lynch the negroes if they could be found.

Twenty-five soldiers and a number of citizens went to the homes of Williams and Brown, near the old Fair Grounds, and surrounded both houses. Ropes had been secured and everything was in readiness for a lynching.

Folleemen with rifles and revolves appeared on the scene and by careful maneuvering succeeded in getting Brown and Williams away to the police station.

A number of soldiers with revolvers were arrested, but were later released.

# PLANS BABY FARM FOR POOR INFANTS.

Location Being Sought Upon Which to Erect Suitable Buildings.

## DOCTOR H. J. SCHERCK'S IDEA.

Object Is to Care for Infants and at the Same Time to Educate Mothers in the Care of Offspring.

A "Baby Farm" for the care of St. Louis infants is a certainty in the near future. according to Doctor H. J. Scherck, chief physician at the City D'spensary, who, in conjunction with Doctor E. W. Saunders, professor of diseases of children at Washington University, is working to bring the plans to completion.

Doctor Scherck stated yesterday that while he was not permitted to name the persons who would furnish the funds for the erection of such an institution, still the ides had been so well received by those whom he had interested in the procet, that a suitable location is being looked for.

ference to-morrow between the miners and Prospect Park, at the Chain of Rocks, has been thought of us an ideal place to locate the "farm." It is high, has fine scenery, and while it is out of the heat and standing, which was to raise the price of dust of the city. It is easily accessible coal to pay for the increase in miners' Furthermore, if the site can be obtained there will be no financial cutlay for the Four conventions assembled to-day. They were the Interstate Convention of Miners, the Miners' District Convention, the Joint Conference Convention and the Operators Convention. All were in executive session and the discussion of the scale was the principal topic.

The Interstate and District conventions did not finish their work until noon, and the operators also adjourned at noon prepared to meet in conference this afternoon for organization. To-morrow the scale will be adopted. In outlining the object of an institution of this kind, Doctor Scherck stated that the idea is to provide a place where babies may be properly cared for, with a view of preventing so many deaths from summer emplaints particularly. rance," as the contributing cause of the death.

"The ignorance displayed by some of the young mothers who bring their babies here to the dispensary is surprising and one of the features of the "farm" will be to educate them in the way to bring up a child.

"The idea is particularly pertinent just now when the coming of a plant for the pasteurizing of milk depends only upon a responsible orgaization taking the matter up, and I will resret very much seeing anything stand in the way of accepting the offer of Mr. Strauss, as outlined by Doctor Bernays."

## CHANGES IN PLANS FOR NAVAL EXHIBIT.

Section of Battleship Fully Equipped Will Be Shown at World's Fair, Also Model of New Naval Academy.

The Republic Bureau, Washington, July 13.-B. F. Peters, chief clerk of the Navy Department, in charge of the naval exhibit at the World's Fair, has made a number of changes in his plans which will make that exhibit the most in teresting and novel in the history of Government displays.

Allen V. Cockrell, the Washington representative of the Fair, to-day conferred with Mr. Peters, who explained in detail the new scope of this work.

The most important feature of the ex hibit will be an exact sized model of an American man-of-war, showing that portion of the vessel from the bow back a distance of 118 feet to about the first smokestack. The model will not be a reproduction of any particular type of ship, but will contain features peculiar to battleship cruisers and gunboats. Both the upper and main decks will be shown. On the forme will be two 10-inch breechloading rifles in modern-balanced turrets. The main, deck will show the Captain's office, staterooms

will show the Captain's office, staterooms, messrooms, petty officers' quarters, berths, baths, hammecks, galley, mess dispensary, ammunition hoists, torpedoes, electric water-tight doors in operation and naval guns of different calibers.

This model will occupy the central portion of the naval exhibit, and will be tree of access to visitors, who thus will be enabled to examine carefully and at close range a modern American man-of-war.

Next in importance to the warship model will be the exhibition hourly, while the Government building is open, of biograph moton scenes, idustrative of the life and duties of the crews on United States menof-war.

motion scenes, idustrative of the life and duties of the crews on United States menori-war.

These moving pictures will be thrown on a 20-foot canvas and will be taken during the approaching summer maneuvers of the North Atlantic squadron off the coast of New England. The scenes reproduced will show the maneuvers of vessels, great gun exercises, landing parties, boat races, fire quarters, general muster, etc. In addition to these radical changes in his former plans, Mr. Peters will exhibit an exact model of the new Naval Academy at Annapolis in miniature, showing in detail the buildings and grounds (as they will lo when completed), for which Congress has appropriated \$10,00,000.

Other features of the naval exhibit will include about thirty models of United States men-of-war, battleships, cruisers, gunboats, torpedo-boats, torpedo-boat destroyers, etc., similar to those now on exhibition in the Navy Department at Washington.

Separate exhibits from the different de-

ngton. Separate exhibits from the different de-Separate exhibits from the different department bureaux, such as the Division of Supplies and Accounts, Construction and Bepair, Navigation, Equipment and Ordnance, will be arranged. In addition, there will be numerous features of great interest, which have been outlined heretofore.

In order to properly guard the naval section, and for the purpose of daily drills, a battalion of 200 United States Marines will be detailed for duty on the Exposition grounds. Their camp will serve as a perfect exhibit of a modern marine camp.

## CALIFORNIA PERSONS SUE THOMAS CLEAGE FOR \$1,905.

C. Lewis Claim Local Commission Man Refuses Payments.

C. Lewis filed suits in the Circuit Court yesterday against Thomas A. Cleage for amounts aggregating \$1,505. Sarah A. Rounds resides in Los Angeles

Cal. She states that she paid \$500 to J. D. Ccry, as the agent of Cleage, who does business as the Cleage Commission Company, to be invested in grain. She avers that the matter was not prop-

erly represented to her. She asks to have the agreement under which she paid the money set aside, and that a judgment for the agreement under which she paid the money set aside, and that a judgment for \$200 be awarded.

Tresslor also resides in California. He states that on September 10 he sent Cleage \$15 to be paid back on demand. He avers that payment has been refused.

Lewis states that on December 1 last Cleage and he were indebted to each other and that a banance of \$500 was due him. He avers that Cleage promised to pay the amount, but has not done so.

## SUES MINISTER FOR MONEY LOANED ON PERSONAL NOTE.

The Reverend Frank G. Tyrrell Involved in Legal Controversy With J. Brooks Johnson.

The Reverend Frank G. Tyrrell, pastor of the Mount Cabanne Christian Church, is involved in a legal controversy with J. Brooks Johnson over the payment of a note for \$300 indersed by John A. Lee,

The case was called for trial in Justice Spaulding's court yesterday, but as Mr. Tyrrell was out of the city, first a continuance was asked, and when that was not granted, a change of venue was taken to justice Griffin's court.

Mr. Tyrrell is on a lecturing tour and will not be back until the end of the week.

Mr. Tyrrell's financial difficulties commenced with the publication of the Optimist. This paper was a financial failure. To start the paper, Mr. Tyrrell needed about 250. Through his brother-in-iaw, George W. Neal, a loan was obtained from John W. Baker.

Neal gave his note for \$50, and got a The case was called for trial in Justice

W. Neal, a loan was obtained from John W. Baker.

Neal as loan was obtained from John W. Baker.

Neal gave his note for \$550, and got a check for \$55, a difference of \$75, the money lender's bonus. When this note became due, Mr. Tyrrell borrowed 509 from Johnson to enable him to take it up.

John A. Lee put up \$200. Mr. Tyrrell raised \$159, and this, with the \$209 borrowed from Johnson, enabled him to pay the original note.

Johnson claims that he loaned Mr. Tyrrell the \$509 without charging him for brokerage." The note called for 8 percent interest. It fell due some time ago and Tyrrell, Neal and Lee, all of whom had signed the note, refused to pay it.

Mr. Tyrell's attorney claims that Johnson was one of the principals in the first transaction, and that Baker's name was used as a subterfuge to exact the \$75 bonus, which is causing the trouble.

Johnson claims that Neal came to his office and tried to borrow \$50, the amount of the original note, and that he did not have the money, so he sent him to Baker, who let him have the money. He says that he was not involved in the first transaction.

Mr. Tyrrell's attorney says that the defendant is not trying to evade the payment of the note, but wants credit for \$75 on the note for \$300 which sum was loaned him by Johnson.

REPUBLIC SPECIAL. Jackson, Miss., July 12.-Prentise County is much puzzled over the manner in which Miss Willie Ray of that county managed to palm herself off as a man for nearly eight years without her sex being doubted even by the most intimate friends and Miss Ray has resided in Prentiss County

Miss Ray has resided in Prenties County since 1895, and in the first five or six years worked for various farmers for monthly wages. She dressed in the ordinary male attire of a farm hand, and made regular trips to Booneville, the county seat, each Saturday afternoon, riding astride on horseback, and to all outward appearances being a neat-looking boy of quiet, gentlemanly habits, although a steady user of tobacco in chewing and smooking form.

Willie was known all over the county as a first-class field hand, a hard worker, and good for debts. Last year the girl in man's masquerade decided to start out as an individual farmer instead of a field hand and rented a small farm, opened a store account, and commenced to get in debt as all small farmers are expected to do.

Last week her sex was unexpectedly revealed at the Courthouse in Booneville, and since that time Willie has been compelled to don female garments. She is originally from Tennessee, about 25 years of age, and when interviewed concerning her reasons for assuming the role of a man said that she did it in order to go out and do man's labor for a livelihood.

He hunted his intended bride and started home, where they could find a suitable one to the the knot that makes "two hearts beat as one." Having secured the village parson, the happy event was about to take place, when the clergyman announced that he could not perform the ceremony. The bride, Miss Rose Mosser, almost swoomed away when she learned the fact.

The distressed twain returned to Oiney, exchanged the hunter's permit for the proper marriage license and went back to Noble, where they were happily married by the good old parson, who had discovered the irregularity. To-day in the clerk's office at Oiney can be found pinned to the stub of a hunter's license hook, the detached certificate, and across the face written in red ink the letters: "Canceled, not needed."

## The Tyfold Collar

The picture shows how the collar is cut out on each side to allow for adjusting a neck tie without springing the col-lar open. The collar comes close together in front, it keeps the tie in place and you don't see the cut-out part. Besides the tie is retained just over the button, which is also kept out of sight. Your summer comfort will be increased if you wear one, and you'll thank us for the style. Dealers sell them.
